Initial pilot target

50+
PEOPLE TRAINED
Owners + employees

12
MONTHS
Program duration

THE OPPORTUNITY

Many Central Texas small businesses lack practical access to AI, modern digital systems, automation, and workforce training. This initiative creates a structured pathway to modernize operations, improve competitiveness, and build local AI capability.

WHAT EACH BUSINESS RECEIVES

- 1 AI readiness assessment
- 2 Digital systems + workflow review
- 3 One practical AI implementation
- 4 Owner / employee training
- 5 90-day follow-up + impact measurement

PILOT OUTCOMES

- 25 businesses assessed + modernization plans
- 20+ businesses complete an AI implementation
- 50+ owners / employees trained
- 80%+ participant completion target
- Track time savings, process gains, revenue opportunities, and jobs created/retained

PROPOSED DELIVERY MODEL

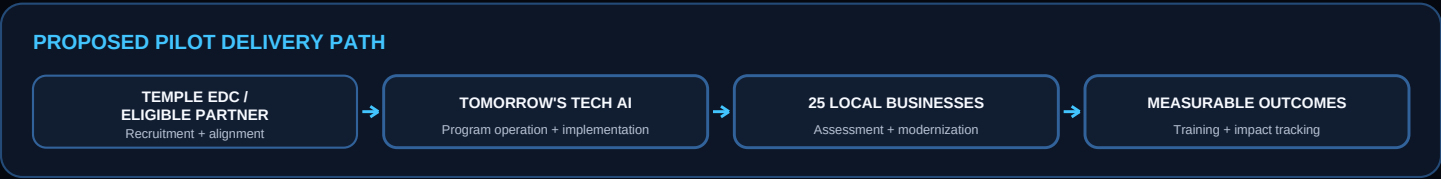

Tomorrow's Tech AI serves as Program Operator / AI Implementation Partner. Temple EDC or another eligible public/nonprofit partner can support local recruitment, strategic alignment, and grant eligibility where required.

PROPOSED \$250K BUDGET

- \$125K** Direct AI + digital modernization
- \$40K** Training + workforce education
- \$35K** Program management + coordination
- \$20K** Software + technology costs
- \$15K** Outreach + business recruitment
- \$15K** Measurement + 90-day follow-up

12-MONTH PILOT TIMELINE

- 1-2** Partner setup, outreach, recruitment
- 3-4** Assessments + modernization plans
- 4-9** AI implementation + workforce training
- 7-11** Follow-up support + performance tracking
- 12** Final impact report + expansion plan

PROPOSED ROLE FOR TEMPLE EDC

Explore strategic partnership, local business recruitment, program validation, funding alignment, and connections to eligible public, nonprofit, educational, workforce, and regional economic-development partners.

GOAL: Build a measurable Central Texas pilot that can scale into a repeatable regional AI modernization model.

TOMORROW'S TECH AI

AI IMPLEMENTATION | BUSINESS MODERNIZATION | WORKFORCE TRAINING
